In 30 seconds everything changed: the earthquake in the Philippines

Dear friends of **KITO**,

today, unfortunately, we need to talk to you about a **dramatic event**, one that, for the Filipino population, is an all too frequent reality.

As always, we will do our best to **take action** and ensure that this tragedy does not go unnoticed.

On September 30, 2025, at 9:59 PM, a **magnitude 6.9 earthquake** struck Cebu. Just **30 seconds** were enough to cause damage that will take years to repair.

More than **750,000** **people** have been affected, around 22,500 are currently displaced, and approximately 160,000 homes have been destroyed. Among the damaged or collapsed buildings are also **schools**, public facilities, and essential services.

At KITO, we would like to intervene by **restoring** the damaged classrooms of:

San Isidro Elementary School,
Santiago Elementary School,
Consuelo Elementary School,
Himensulan Elementary School.

Acting now is crucial, but our goal goes beyond the emergency: these reconstruction efforts represent a **long-term investment**, capable of ensuring education, safety, and stability for communities over time.

Without safe schools, there can be no future.

We need your support.

Every contribution can make a difference, today and in the years to come.

Together, we can transform this emergency into an opportunity for recovery.
